

Give happy learning back to children !

Product Advantages

Full scene three-dimensional interaction

According to different scene forms, various interactive methods including touch, body sensation, voice control, etc. are adopted to achieve a full range of human-computer interaction experience, real-time dynamic feedback, zero delay, and reachable, giving a different user experience.

Enriching content ecology

The interactive courseware covers many categories including story picture books, astronomy, geography, life safety, mathematics, English, music, art, concentration training, logical thinking training, sports training, games and entertainment, etc., to meet the usage needs of different scenarios and age groups.

Immersive visual experience

Immersive projections enhance engagement and interactivity by creating an immersive visual experience. Its high resolution, flexibility, multi-sensory stimulation and strong interactivity make it widely used in fields such as education, training, art display and brand promotion, with remarkable results.

Technical Strength

The team brings together the company's outstanding talent resources and has more than 10 years of R&D service experience in the field of interactive projection. It has obtained more than 100 certificates including inventions, a full-stack self-developed Android system interactive architecture, introduced AI technology applications, and continuously developed solutions to a series of technical problems, and innovatively launched AI interactive learning spaces.

Part 01

Android application platform
OTA online upgrade

Part 02

Self-developed interactive
system architecture

Part 03

AI Technology Application

AI interactive learning machine

High-performance processor

Runs smoothly without lag, ensuring stable daily use.

High-speed LiDAR

Using advanced TOF ranging principle, it has higher stability and better light resistance.

HD camera

High-definition visual capture, combined with infrared fill light, makes portrait capture more accurate.

Integrated metal body

High-strength metal body design to extend the service life of the equipment.

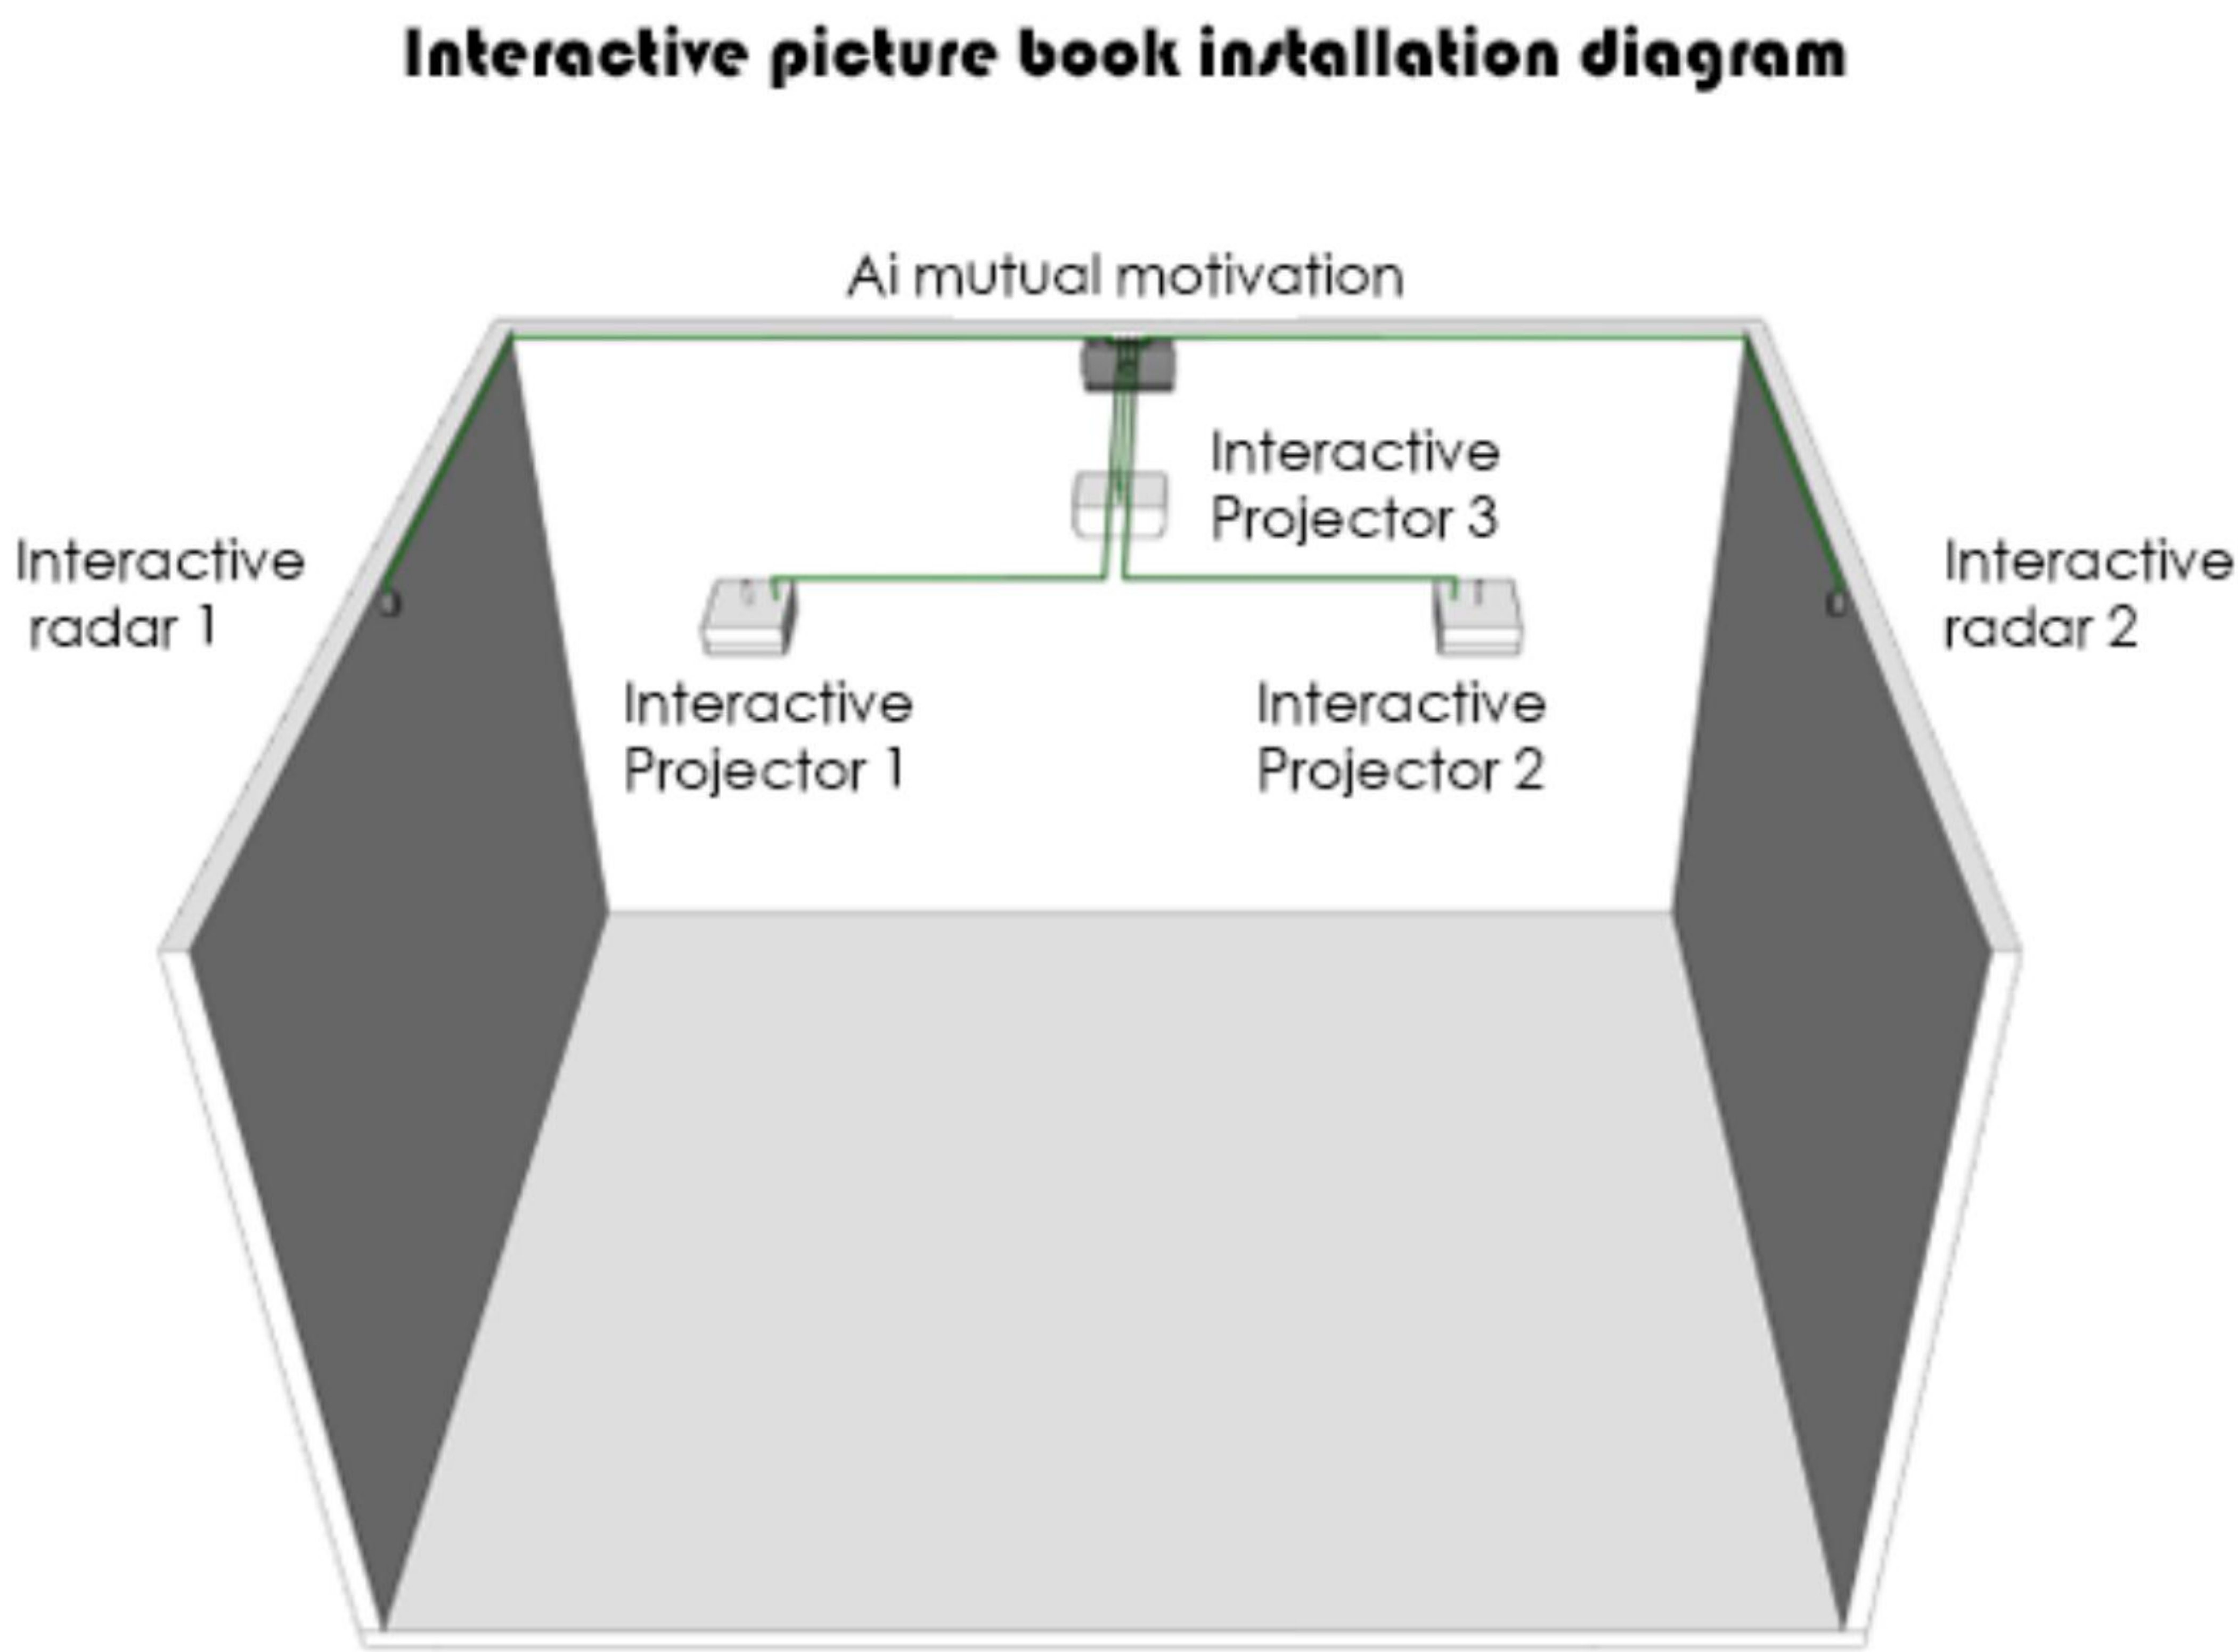

features

Adopt 1 interactive machine + 3 radar architecture + 3 projectors to achieve three-sided touch interaction.

Product Structure

AI interactive picture book product list	
Product Name	Quantity
AI interactive box T200	1
Infrared remote control	1
Power supply (12v5a)	1
Interactive radar (including protective cover)	2
Data extension cable 5 meters	2
Projector	3

Rich interactive courseware

Listen to the story	Beauty and the Beast	Crab Wars
Cinderella	Puss in boots	Friends watch it again and again
Ali Baba and the Forty Thieves	Niels Travels on a Goose	Pumpkin Smash Bros
The Legend of Mulan	Three little piglets	Shining Crystal
Ugly duckling	Fountain of Life	Burger
Jack and the Beanstalk	Love to learn	Ball Battle
Pauline lamp	Know how much about the terrain	Concentration exercises
The Little Prince	Spectrum of Flowers	Camping under the stars
Little Red Riding Hood	Math Challenges	Gourmet Sudoku
The wolf and the seven lambs	Fruit Challenge	Happy tail
The Emperor's New Clothes	Digital challenges	A gathering of pirates
The Wizard of Oz	English Corner	Angry Birds
Tortoise and hare race	Encyclopedia of Animals	The most beautiful clothes
Snow White	Happy ABC	Space adventures
The Adventures of Pinocchio	Deep-sea exploration	Cat Garden
Little girl selling matches	A trip to space	Cyber City
Sleeping Beauty	Shape Challenge	Shoot the fruit together
The Frog Prince	Animal Memory Challenge	Dessert party
Wild swans	Digital Memory Challenge	Enchanted Realm
The Little Mermaid	Brick adventure	Logic maze
The Fisherman and the Goldfish	Save the boat	Equivalent interactions
Alice in Wonderland	Master of Rhythm	Animal squads
Thumbelina	Fruit-cutting party	Fish swim and swim
